

Annex 41

Registration

**Scope of the review on
“6 MW RPPL biomass based power plant” (1195)**

1. The Board agreed to undertake a review of the project activity “6 MW RPPL biomass based power plant” (1195)
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine the additionality of the project activity, in particular the inclusion of sunk costs in the investment analysis, and the prior consideration of the CDM at the start of the project activity in 2002.
