 <p>CDM project activity registration review form (F-CDM-RR) <i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i></p>	
Designated national authority/Executive Board member submitting this form	
Title of the proposed CDM project activity submitted for registration	Enercon Wind Farm (Hindustan) Ltd in Karnataka; Project activity 1259
<p>Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation.</p>	
<p><input type="checkbox"/> <i>The following are requirements derived from paragraph 37 of the CDM modalities and procedures:</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> The participation requirements as set out in paragraphs 28 to 30 of the CDM modalities and procedures are satisfied; <input type="checkbox"/> Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received; <input type="checkbox"/> Project participants have submitted to the DOE documentation on the analysis of the environmental impacts of the project activity, including transboundary impacts and, if those impacts are considered significant by the project participants or the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party; <input checked="" type="checkbox"/> The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures; <input checked="" type="checkbox"/> The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board; <input type="checkbox"/> Provisions for monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP; <input type="checkbox"/> The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board. <p><input type="checkbox"/> <i>The following are requirements derived from paragraph 40 of the CDM modalities and procedures:</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project participants written approval of voluntary participation from the designated national authority of each Party involved, including confirmation by the host Party that the project activity assists it in achieving sustainable development; <input type="checkbox"/> In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document; <input type="checkbox"/> The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available; <input type="checkbox"/> After the deadline for receipt of comments, the DOE shall make a determination as to whether, on the basis of the information provided and taking into account the comments received, the project activity should be validated; <input type="checkbox"/> The DOE shall inform project participants of its determination on the validation of the project activity. Notification to the project participants will include confirmation of validation and the date of submission of the validation report to the Executive Board; <input type="checkbox"/> The DOE shall submit to the Executive Board, if it determines the proposed project activity to be valid, a request for registration in the form of a validation report including the project design document, the written approval of the host Party and an explanation of how it has taken due account of comments received. <p><input type="checkbox"/> There are only minor issues which should be addressed by the DOEs prior to the registration of the project.</p>	
Section below to be filled in by UNFCCC secretariat	
Date received at UNFCCC secretariat	26/09/2007

Reason for request:

1. Further demonstration of the additionality of the project activity is required.
2. The additionality of the project should be demonstrated using version 3 of the additionality tool.
3. Further evidence regarding investment analysis and common practice should be provided.
4. Further evidence validating the appropriateness of the benchmark is required.

5. Further justification and validation of the PLF is required.
6. The PPs applies ACM0002/version 06. Grid EF is calculated for Southern regional grid of India and is fixed ex-ante. The PPs use the statistics from CEA database. Simple OM is calculated for years 2002-2005 but year for BM is not clearly mentioned in the PDD. Further clarification is required.
7. Only one parameter is considered in section B.7 for monitoring. This is net electricity supplied to the grid. According to the validation report (page 14) “the net electricity exported to the grid will be reported on a monthly basis and cross-checked with the invoices raised to KPTCL”. This means that measured net electricity is the basis for CERs and invoices are only for crosschecking, though this is not clearly expressed in Monitoring Information (Annex 4 to the PDD). At least two parameters: import, export should be listed in B.7.1-“Data and Parameters Monitored” and the third- net electricity should be calculated. Role of invoices should be added in the Annex 4 to the PDD.
