

REVIEW OF THE PROJECT ACTIVITY

"Hebei Shangyi Manjing North Wind Farm Project" (1792)

At its fifty-fifth meeting the Board could not register the project activity "Hebei Shangyi Manjing North Wind Farm Project" (1792) submitted for registration by the DOE (DNV).

The Board considered the corrected project documentation which had been submitted in response to the outcome of a review finalized at EB 51. The Board noted that the corrections which had been requested following the review required the DOE to provide information as to whether the tariffs could be considered to be an E-policy and if not, to assess in a quantitative manner whether the observed changes in the applicable tariff had resulted in a change in the incentives for investors. The Board considered that the DOE and project participants had failed to either clarify that the tariff could be considered an E- policy or provide a quantitative assessment. The Board could therefore not assess the suitability of the applied tariff and therefore could not register the proposed CDM project activity.
