

**REVIEW OF THE PROJECT ACTIVITY****“Hejiang County Yuanxing Hydro Project” (1804)**

At its forty-fourth meeting the Board could not register the project activity submitted for registration by the DOE (DNV) because the project participant and the DOE have failed to substantiate the additionality of the project activity due to the lack of evidence and information to support the assumption of an 18% gap between power generation and power exported to the grid applied in the investment analysis.
