Subject Submission of PCN and PDD for HCA

Dear Bhavesh ji,

Please find enclosed herewith the copies of PDD and PCN that has to be sent for Host Country Approval.

Kindly ensure that 20 copies of PDD and PCN are to be binded together-the PCN should come in first followed by the PDD and both should be binded together as one single copy. Similarly 20 binded copies of PDD and PCN should be made.

Two CDs, each containing one scanned copy of the forwarding letter (to be taken on your letter head), PDD and PCN should be also enclosed with the documents. All of these along with the forwarding letter (hard copy) will have to be couriered to the Ministry.

PCN.doc.zip PDD.doc.zip

**Subject:** additional information requirements for the CDM project of Claris

**Importance:** High

Dear Mr.Bhavesh,

As per our communication today , please find the replies to your queries:

1. Biomass Availability Report: This is the assessment that is usually carried by the consultants.

Also please provide us the configuration of your proposed project activity; whether any separate turbine would be installed for additional power requirements.

On the basis of the telecom today, we are assuming the boiler efficiency to be 100 % and it would be fixed for monitoring of the same. The steam demand for process requirements (6 TPH) is the same as that of the pre project scenario.

Dear Mr Patel,

Please let me know when you are returning to India. The coordinators from your side ( Both Nilesh and Ashish) are young enough and not able to convey the legal terms and conditions for CDM aspects. The similar engagement and clauses are signed by Claris earlier with E&Y and there should have been no issue in getting this one signed.

Please see the attached signed EL of Claris with Exhibit B&C for clause 49 engagement and present EL .

I request you also not to forward this mail to them as this might not be morally right and this is a clause 49 engagement meant for senior management only.

Thanks and Regards,

Dear Sudipta,

It was nice talking to you on above said subject and got feedback too.

We are very much interested in taking carbon credit for sure .

Could you send your proposal for two projects ?

(1) Co-generation Facility -comprising of 16 TPH high pressure steam boiler and 2 MW steam turbine. We also produce 2500 no of bricks from Ash generated from this unit too .

(2) Plastic reprocessing unit-This unit is processing 5 ton of plastic scrap everyday and converting into Plastic Grannuels.

We have plan for another high pressure boiler based on Dry agro waste. But we would like to have your proposal for above mention two projects.

Subject RE: Carbon Credits for Claris Lifescience

Dear Sudipta,

With respect to above subject, I would like to interact with you for two different projects which were put up in year 2006. These are

1) Co-Generation Facility-Comprising of 16 TPH high pressure boiler and 2 MW of steam turbine. We are firing dry agro waste i.e Castor Deoiled Cake and we are initiator of this fuel too.

2) Plastic Reprocessing units-We are bulk consumer of food grade plastic. In the process we generate process scrap and this scrap we recycle with help of imported technology and make granules from this scrap. The quality of this scrap is better than Virgin Plastic available in India and therefore one can use this very well. Everyday we process 5000Kg of LDPE scrap and generate granules from the same. Thus we are saving burning of fossil fuel to this extent.

With this brief, I would like to interact with you for carbon credit for us. Since I am handling projects directly in the company I will drive this project.

Please note my cell number -9825007520.
