

**Annex 35****Registration****Scope of the review on
“Santa Rosa Hydropower Plant Project” (2101)**

1. The Board agreed to undertake a review of the project activity “Santa Rosa Hydropower Plant Project” (2101).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the additionality of the project activity through an assessment of:
 - (a) The credibility of the proposed alternatives, as the Board is concerned regarding the non-economic reasons for not opting to proceed with the alternative of not investing in the project activity which is indicated as the most attractive alternative with or without the CDM, and
 - (b) Why the destroyed power plant of 12.5 MW has been replaced by 16.3 MW power plant and why the expensive scenario of 16.3 MW is validated additional given that the scenario of 12.5 would supply the same power generation and would be more economically attractive without the CDM.
