

**Annex 56****Registration****Scope of the review on  
“INPA Fuel Switch Project” (2319)**

1. The Board agreed to undertake a review of the project activity “INPA Fuel Switch Project” (2319).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the additionality of the project activity through an assessment of:
  - (a) the suitability of NPV analysis to demonstrate the additionality as NPV analysis has not been conducted for the other alternatives considered;
  - (b) the suitability of the input values to the NPV calculation, in particular, price of biomass and fuel oil;
  - (c) why it is unlikely that the price of fuel oil will not increase by 4% or the price of biomass will not decrease by 4%; and
  - (d) the technological barrier as it is not clear how lack of availability of briquettes suppliers could be a technological barrier.
