“Shandong Dongying 1st phase Wind Power Project” (2584)**

1. The Board agreed to undertake a review of a project activity “Shandong Dongying 1st phase Wind Power Project” (2584).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the additionality of the proposed project activity, through an assessment of the investment analysis, in particular the suitability of the tariff as the Board’s concerns as indicated in paragraph 48, EB49 report has not been adequately addressed by the DOE and thus the DOE has failed to confirm that there was no reductions in applicable tariffs between 2002 and the start date of the project activity and whether such reductions in applicable tariffs have not resulted in a reduction of the incentive for investment in wind power.
