1. The Board agreed to undertake a review of a project activity “Hangzhou Huadian Banshan Power Generation Co., Ltd.’s Natural Gas Power Generation Project” (2705).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to determine the additionality of the project activity, in particular, the project start date and prior consideration of CDM, as it has not been adequately explained how the PP could sign the purchase contract with suppliers for major project equipment such as the turbine and the generator, which may have been based on certain cost assumptions and technological configuration, before the completion of the FSR that led the PP’s Board of Directors to decide that they needed the CDM to undertake the project activity.
