

**Annex 31****Registration****Scope of the review on****"Cimentos do Mozambique - Matola Gas Company Fuel Switch Project" (3048)**

1. The Board agreed to undertake a review of the project activity “Cimentos do Mozambique - Matola Gas Company Fuel Switch Project” (3048).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess:
 - (a) The additionality through an assessment of investment analysis, in particular, how the DOE has validated the:
 - (i) Suitability of using data from US PPI for coal and diesel price escalation;
 - (ii) Sensitivity analysis of the revised NPV calculation; and
 - (iii) Assumption that project efficiency is equal to baseline efficiency;
 - (b) Application of the methodology as the energy efficiency is not measured and monitored as prescribed by the methodology; and
 - (c) The remaining lifetime of the element process.
