

**Annex 25****Registration****Scope of the review on  
“Huadian Tongliao Beiqinghe 300 MW Wind Farm Project” (3091)**

1. The Board agreed to undertake a review of a project activity “Huadian Tongliao Beiqinghe 300 MW Wind Farm Project” (3091).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to determine the additionality of the project activity through an assessment of the suitability of the input values to the investment analysis, in particular, the:
  - (a) Tariff applied, 0.5216 RMB/kWh (including VAT) for the first 30,000 hours and 0.40 RMB/kWh (including VAT) beyond 30,000 hours, in the project IRR calculation considering that there is a higher tariff in the Inner Mongolia Autonomous Region (such as 0.54 RMB/kWh, including VAT), and as the project IRR crosses the benchmark when this higher tariff is applied to this project activity; and
  - (b) Plant load factor (PLF) as it is not clear why different sets of data were considered while analysing the PLF and the common practice analysis for the same project activity.
