

**Annex 37****Registration****Scope of the review on  
“SDIC Xiyang Baiyangling CMM to power generation project” (3219)**

1. The Board agreed to undertake a review of a project activity “SDIC Xiyang Baiyangling CMM to power generation project” (3219).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the application of the baseline methodology, ACM0008 v6, through an assessment of the appropriateness of the identified baseline scenario, in particular, how the DOE has validated that the venting of high CH<sub>4</sub> concentration CMM, which has to be either used or destroyed as per the Emission Standard of Coalbed Methane/Coal Mine Gas (GB 21522-2008), is not systematically enforced and that non-compliance with those is widespread in the country.
