

**Annex 35****Registration****Scope of the review on
“AGA FANO Liquid CO₂ production using CO₂ from a
fermentation plant at Ingenio Providencia” (2630)**

1. The Board agreed to undertake a review of the project activity “AGA FANO Liquid CO₂ production using CO₂ from a fermentation plant at Ingenio Providencia” (2630).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to determine the applicability of the methodology, through an assessment of:
 - (a) The pre-project scenario, as the DOE has not provided a full validation opinion regarding how the pre-project scenario complies with paragraph 2 of AMS-III.J v3; and
 - (b) The project implementation, as the response to the request for review does not clarify how compliance with paragraphs 3 and 5 of the AMS-III.J v3 will be ensured.
