

**Annex 54****Registration****Scope of the review on
“12.82 MW Bundled Small Hydropower Project in Qiandongnan Autonomous Region,
Guizhou Province, P. R. China” (2253)**

1. The Board agreed to undertake a review of the project activity “12.82 MW Bundled Small Hydropower Project in Qiandongnan Autonomous Region, Guizhou Province, P. R. China” (2253).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the additionality of the project activity, through an assessment of the suitability of the assumed electricity supply to the grid in the investment analysis, as it has not been demonstrated that the coefficient of effective electricity is an accurate assumption in the context of the project activity, in particular, the submitted validation report (p11) stated that, for station 3, the FSR does not consider the transmission and station losses.
