*Please elaborate the reason for requesting a review on the requirements you indicated in section 2 above.*

1) An inflation rate of 6.776% has been applied to the return on equity default value from EB62, annex 5 to obtain the nominal rate of benchmark of 20.39%. In this regard, the DOE is requested to further justify the appropriateness of applying 3% escalation rate to the O&M cost and fixing the electricity tariff in the calculation of project equity IRR in the investment analysis. Please refer to VVM para 111(a) and (b).
