

**Annex 24****Scope of the review on
“Nubarashen Landfill Gas Capture and Power Generation Project in Yerevan (0069)”**

1. The Board agreed to undertake a review of the “Nubarashen Landfill Gas Capture and Power Generation Project in Yerevan (0069)”.
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover:
 - (a) The lack of clarity of environmental impact analysis and need for evidence regarding the quoted text;
 - (b) Definition of the project boundary;
 - (c) Problems in completion of the CDM-PDD by
 - incorrect quoting and paraphrasing;
 - inconsistencies between different sections filled;
 - no complete answers to headers;
 - no appropriate presentation of use of the methodology;
 - incorrect use of the CDM-PDD template.
3. The Board nominated Mr. Martin Enderlin and Mr. Xuedu Lu as members of the Review Team of this case. The review team may call on outside expertise in consultation with the Chair of the Board, as appropriate.
