

 <p align="center">CDM project activity registration review form (F-CDM-RR) <i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i></p>	
Designated national authority/Executive Board member submitting this form	
Title of the proposed CDM project activity submitted for registration	7.2 MW Wind Project at Chitradurga, Karnataka; Project activity 1341
<p>Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation.</p> <p><input type="checkbox"/> <i>The following are requirements derived from paragraph 37 of the CDM modalities and procedures:</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> The participation requirements as set out in paragraphs 28 to 30 of the CDM modalities and procedures are satisfied; <input type="checkbox"/> Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received; <input type="checkbox"/> Project participants have submitted to the DOE documentation on the analysis of the environmental impacts of the project activity, including transboundary impacts and, if those impacts are considered significant by the project participants or the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party; <input checked="" type="checkbox"/> The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures; <input checked="" type="checkbox"/> The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board; <input type="checkbox"/> Provisions for monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP; <input type="checkbox"/> The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board. <p><input type="checkbox"/> <i>The following are requirements derived from paragraph 40 of the CDM modalities and procedures:</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project participants written approval of voluntary participation from the designated national authority of each Party involved, including confirmation by the host Party that the project activity assists it in achieving sustainable development; <input type="checkbox"/> In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document; <input type="checkbox"/> The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available; <input type="checkbox"/> After the deadline for receipt of comments, the DOE shall make a determination as to whether, on the basis of the information provided and taking into account the comments received, the project activity should be validated; <input type="checkbox"/> The DOE shall inform project participants of its determination on the validation of the project activity. Notification to the project participants will include confirmation of validation and the date of submission of the validation report to the Executive Board; <input type="checkbox"/> The DOE shall submit to the Executive Board, if it determines the proposed project activity to be valid, a request for registration in the form of a validation report including the project design document, the written approval of the host Party and an explanation of how it has taken due account of comments received. <p><input type="checkbox"/> There are only minor issues which should be addressed by the DOE / project participants prior to the registration of the project.</p>	
Section below to be filled in by UNFCCC secretariat	
Date received at UNFCCC secretariat	23/11/2007

Reasons for request:

1. Further clarification is required on the validation of the input values in the IRR calculations, in particular the higher investment costs than other similar projects; related to the distribution lines.
2. Further clarification is required with regard to the prior consideration of the CDM as the 1st wind turbine was commissioned in 2005 but the PDD was submitted for validation only in 2006. The DOE shall further clarify how the entity has assessed and validated that the PPs considered the CDM in a management decision in 2004 and whether this consideration is clearly and transparently substantiated.

3. The monitoring plan is as per the methodology. However as there are similar wind energy projects in the region (and in some situations, with same project proponents/ suppliers) there is a probability of more than one project supplying to the same sub-station. The PP shall further clarify whether this is the case. In addition the DOE shall further clarify how they have addressed the risk of double counting and which systems are in place to avoid double counting.
