To,

The Director

Garg Casteels Pvt Ltd

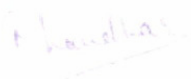

Bhavnagar

Sub: Commissioning of Diesel Generators on producer gas

Dear Sir,

This is to inform you that we have been successfully running the power plant purely on producer gas for last three days (more than 72 hours). No break down have been experienced and we are of opinion that now the DG sets can run on 100% producer gas mode.

We request you to release our payment for the same.
