Date of request for issuance	14 Mar 13	
Monitoring period to which the request for issuance applies	01 Jul 10 - 30 Jun 12	
UNFCCC reference number of the request for issuance (For PoA only)		

Section 2. Basis for review request

Please indicate, in accordance with paragraphs 65 of the CDM modalities and procedures, for which reason(s) you request review.

☐ Fraud
 ☐ Malfeasance
 ☒ Incompetence

Section 3: Comments Supporting Review Request

Please elaborate the reason for requesting a review on the issues you indicated in section 2 above

1) The revised monitoring plan (p 37) submitted in the request for issuance defines that the efficiency of the SAVE80 system for each vintage will be based on water-boiling test for every year of operation and based on the mean value of the three tests multiplied by a conservativeness factor of 0.943. The DOE is requested to further substantiate a) how it verified the efficiency of the SAVE80 system as per the monitoring plan (p36) as the efficiency of the SAVE80 system for the vintage 1 (35.19%) is based on an old value of efficiency tests conducted in 21/05/2010 without further recalculation to be used in the annual weighted average and b) why it is considered that the sampling has been carried out annually as the efficiency has been tested just once in the respective year. Please refer to VVS v2, para 236, 284 (e).
