

**Annex 21****Issuance****Scope of the review on
“Onyx Alexandria Landfill Gas Capture and Flaring Project”(0508)**

1. The Board agreed to undertake a review of the project activity “Onyx Alexandria Landfill Gas Capture and Flaring Project” (0508).
2. The Board agreed that the scope of the review relating to issues associated with verification requirements shall cover an assessment to determine whether the monitoring and recording of the methane fraction in the landfill gas and the number of samples of the total amount of landfill gas captured and the amount of landfill gas flared taken are in accordance with the methodology ACM0001 version2, which requires that periodical measurements the fraction of methane in the landfill gas should be measured at a 95% confidence level, using calibrated portable gas meters and taking a statistically valid number of samples.
