

 CDM project activity issuance review form <i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i>	
Designated national authority/Executive Board member submitting this form (Name in print)	
Title of the proposed CDM project activity for which issuance is requested	Grasim Cement: Energy efficiency by up-gradation of clinker cooler in cement manufacturing; Project Activity 0858
DOE that requested for issuance and date of request	SGS UKL 17-07-07
Please indicate, in accordance with paragraphs 65 of the CDM modalities and procedures, for which reason(s) you request review. (Place a cross (X) in front of the reason)	
<input type="checkbox"/> <i>Fraud</i> <input type="checkbox"/> <i>Malfeasance</i> <input checked="" type="checkbox"/> <i>Incompetence</i>	
Please indicate reasons for the request for review and attach any supporting documentation to this request form. (if space is not sufficient please attach further reasons)	
<p>1. The approved methodology requires “(b) Metering the energy use of the industrial facility, processes or the equipment affected by the project activity.” However, the verified monitoring report and the verification report is not accordance with the methodology. Further clarification is required.</p> <p>2. The monitoring report stated that gross calorific value of fuel consumed is based on analyses by an independent lab. The average calorific values of the fuel from April 2005 to March 2006 in the PDD are different from the values of the fuel in the monitoring report; these changes should be clarified as the date of registration was 3 March 2007.</p> <p>3. There is a discrepancy of the formula for the calculation of the total energy savings between the PDD and the monitoring report, which result in more energy savings for this monitoring period. Further clarification is required.</p>	
Section below to be filled in by UNFCCC secretariat
