

Annex 30

Registration

**Scope of the review on
“Vikram Cement: Energy efficiency by up-gradation of clinker cooler in cement
manufacturing” (0859)**

1. The Board agreed to undertake a review of the project activity “Vikram Cement: Energy efficiency by up-gradation of clinker cooler in cement manufacturing” (0859).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine if the approved small-scale methodology AMS-II.D version 7 has been correctly applied to the proposed project activity.
