Designated national authority/Executive Board member submitting this form Title of the proposed CDM project activity submitted for registration Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation. The following are requirements set tor review, including any supporting documentation. Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received. Project aptricipants have submitted to the DDC documentation on the analysis of the environmental impacts of the project activity, including transboundary impacts and, if those impacts are considered significant by the project participants are host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party. X The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures: Phe baseline and monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board. The following are requirements derived from paragra	CDM project activity registration review form (F-CDM-RR) (By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)		
submitted for registration Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation. The following are requirements derived from paragraph 37 of the CDM modalities and procedures:			
validation requirement(s) may require review, including any supporting documentation. The following are requirements derived from paragraph 37 of the CDM modalities and procedures: The participation requirements as set out in paragraph 28 to 30 of the CDM modalities and procedures are satisfied; Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments have been invited. a summary of the comments received participants or the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party; May have undertaken an environmental impact assessment in accordance with procedures as required by the host Party; The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures: The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board. The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP: The project activity conforms to all other requirements for CDM modalities and procedures and relevant decisions of the validation report to the Executi		Khon Kaen Sugar Power Plant, Project Activity 10.	
The participation requirements as set out in paragraphs 28 to 30 of the CDM modalities and procedures are satisfied; Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received; Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any commental impacts of the project edivity, including transboundary impacts and, if those impacts are considered significant by the project participants of the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party. A	validation requirement(s) may require review. A list of requirements is provided below. Please provide		
 □ Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received; □ Project participants have submitted to the DOE documentation on the analysis of the environmental impacts of the project activity, including transboundary impacts and, if those impacts are considered significant by the project participants or the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party; X □ The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures; □ The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board; □ The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and procedures and relevant decisions by the COP/MOP; □ The following are requirements derived from paragraph 40 of the CDM modalities and procedures: □ The following are requirements derived from paragraph 40 of the CDM modalities and procedures; □ In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project activity assists it in achieving sustainable development; □ ha cocrdance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available; □ The DOE shall inform project participants of its determination on the validation frequirements from Parties, st	☐ The following are requirements derived from paragraph 37 o	of the CDM modalities and procedures:	
to the designated operational entity (DOE) on how due account was taken of any comments has been received; Project participants have submitted to the DOE documentation on the analysis of the environmental impacts of the project participants or the host Party, have undertaken an environmental impact as as, if those impacts are considered significant by the project participants or the host Party, have undertaken an environmental impact as assessment in accordance with procedures as required by the host Party; X The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures; The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board; Provisions for monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP? The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP? The project activity conforms to all other requirements for CDM modalities and procedures: The following are requirements derived from paragraph 40 of the CDM modalities and procedures: The DDE shall, prior to the submission of the validation report to the Executive Board, have received from the project activity assists it in achieving sustainable development; In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall neceive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available; The DDC shall inform project participants of its determination on the validation repor	The participation requirements as set out in paragraphs	is 28 to 30 of the CDM modalities and procedures are satisfied;	
activity, including transboundary impacts and, if those impacts are considered significant by the project participants or the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party, X The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures; The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board; The baseline and monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP; The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board. The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project activity assists it in achieving sustainable development; The DOE shall provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document; The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available; The DOE shall inform project participants of its determination on the validation is to whether, on the basis of the information provied and taking into account the comments received, the project activity should be validated; The DOE shall inform project participants of its determination on the validation report activity. Notification to the project participants or industing into account the comments received, the project activity. Notificatio			
are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures; The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board; Provisions for monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP; The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board. The project activity conforms to all other requirements for CDM modalities and procedures: The following are requirements derived from paragraph 40 of the CDM modalities and procedures: The following are requirements derived from paragraph 40 of the CDM modalities and procedures: The following are requirements derived from paragraph 40 of the CDM modalities and procedures; The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project participants written approval of voluntary participation from the designated national authority of each Party involved, including confirmation by the host Party that the project design document; The DOE shall make publiciy available the project design document; The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publiciy available; The DOE shall inform project participants of its determination on the validation of the project activity. Notification to the project participants will include confirmation of validation and the date of submission of the validation report to the Executive Board; The DOE shall submit to the Executive Board, if it determines the proposed project activity to be valid, a request for registration in the form of a	activity, including transboundary impacts and, if those impacts are considered significant by the project participants or the host		
the Executive Board; Provisions for monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP; The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board. Reasons for request:

- 1. Further information is required on effects of the project activity on the cost of self consumed electricity and the incorporation of these effects in the calculation of the IRR.
- 2. Evidence should be provided to support the equity benchmark rate of 15% employed by the project participant in the calculation of the WACC.
