

## CDM project activity registration review form (F-CDM-RR) (By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)

*/	,
Designated national authority/Executive Board member submitting this form	
Title of the proposed CDM project activity submitted for registration	ENERGY EFFICIENCY MEASURES AT CEMENT PRODUCTION PLANT IN CENTRAL INDIA; Project activity 1072
Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation.	
☐ The following are requirements derived from paragraph 37 o	f the CDM modalities and procedures:
☐ The participation requirements as set out in paragraphs	28 to 30 of the CDM modalities and procedures are satisfied;
☐ Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received;	
activity, including transboundary impacts and, if those impa	entation on the analysis of the environmental impacts of the project acts are considered significant by the project participants or the host ent in accordance with procedures as required by the host Party;
	anthropogenic emissions by sources of greenhouse gases that are oposed project activity, in accordance with paragraphs 43 to 52 of
The baseline and monitoring methodologies comply with the Executive Board;	n requirements pertaining to methodologies previously approved by
☐Provisions for monitoring, verification and reporting are procedures and relevant decisions of the COP/MOP;	in accordance with decision 17/CP.7, the CDM modalities and
☐ The project activity conforms to all other requirements f and procedures and relevant decisions by the COP/MOP a	or CDM project activities in decision 17/CP.7, the CDM modalities and the Executive Board.
$\square$ The following are requirements derived from paragraph 40 c	f the CDM modalities and procedures:
☐ The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project participants written approval of voluntary participation from the designated national authority of each Party involved, including confirmation by the host Party that the project activity assists it in achieving sustainable development;	
☐ In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document;	
☐ The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available;	
☐ After the deadline for receipt of comments, the DOE shall make a determination as to whether, on the basis of the information provided and taking into account the comments received, the project activity should be validated;	
	nation on the validation of the project activity. Notification to the nd the date of submission of the validation report to the Executive
	rmines the proposed project activity to be valid, a request for project design document, the written approval of the host Party and hts received.
$\hfill \square$ There are only minor issues which should be addressed by t	he DOE / project participants prior to the registration of the project.
Section below to be filled in by UNFCCC secretariat	
Date received at UNFCCC secretariat	09/06/2007

Reasons for request:

The PDD and monitoring plan, as appropriate, should transparently outline how the energy savings and emission reductions for each energy efficiency measure have been measured and/or calculated, and how the following sections of the methodology have been applied:

- (a) Documenting the specifications of the equipment replaced
- (b) Metering the energy use of the industrial facility, processes or the equipment affected by the project activity
- (c) Calculating the energy savings using the metered energy obtained from subparagraph (b).
