WHEREAS one of the functions of the First Party under **Section 12(a)** of the said Act is the promotion and operation of the schemes inter-alia for the supply of water in the Damodar Valley.

AND WHEREAS under the provisions of **Section 15** of the said Act the First Party is vested with power to determine and levy rates for bulk supply and retail distribution of water for industrial and domestic purposes and specify the manner of recovery of such rates.

AND WHEREAS under the provisions of **Section 17** of the said Act construction, operation or maintenance in the Damodar Valley of any dam or other work of any installation for the extraction of water shall not be effected by any person without the consent of the First Party.

AND WHEREAS the Second Party has requested the First Party under cover of its letter dated 26.7.05 annexed hereto, to allow it to construct, operate and/or maintain the water supply scheme and to allow it to have a supply of water from Damodar river for their Sponge Iron factory at village poradih, Purulia, West Bengal in accordance with the approved plan and drawing forwarded by Chief Engineer (Civil), DVC, Maithon under cover of his letter No.CE-17/51-971, dated August 6th, 2005 and letter No. MD/DVRRW-6/2005/417-24, dated 01-07-2005 of Member Secretary, DVRRRC, CWC, Maithon annexed hereto for industrial and/or domestic purpose as laid down in the relevant provisions of the said Act.

AND WHEREAS the First Party has agreed to such construction, operation and/or maintenance of the water supply scheme and has further agreed to such supply of water to the Second Party on the terms and conditions as hereinafter appearing.

**NOW THIS AGREEMENT WITNESSETH AND IT IS HEREBY DECLARED
AND AGREED AS FOLLOWS:-**

01. PERMISSION :

The "First Party" hereby grants to the "Second Party" the permission

Chief Engineer (Comm1)
For & on behalf of
Damodar Valley Corpn
Kolkata

Vikash Metal & Power Ltd.

Director

with effect from the date of commencement of withdrawal to construct, operate and/or maintain the said water supply scheme in accordance with the Plan and Drawing annexed hereto and to extract such quantities of water from Damodar river for their Sponge Iron Factory at village Poradih, Purulia, West Bengal as the "Second Party" may require upto 1.0 MGD at the point in the Damodar Valley indicated in the said Plan and Drawing annexed hereto and in the manner hereinafter mentioned provided the "Second Party" desiring to increase or decrease the quantity of water to be extracted as permitted aforesaid the "First Party" may require the "Second Party" to give the "First Party" sufficient notice in writing stating the quantity of water required and the "First Party" after receipt of such notice within one month may or may not permit the additional drawal of water depending on the condition prevailing at that time provided further that failure on the part of the First Party will not be construed as breach of this Agreement.

12. APPROVAL OF PLAN & DRAWING INSPECTION:

The installation of the "Second Party" required for extraction of water at the point on the River Damodar indicated in the said Plan and Drawing shall be duly approved by the "First Party" before erection provided the "First Party" or its representatives duly authorised in that behalf shall, from time to time, and at all times be entitled to enter such installations of the "Second Party" for inspection.

13. EXCESS DRAWAL:

No drawal in excess of the water, as permitted shall be made by the "Second Party" without obtaining the specific permission of the First Party and subject to such terms and conditions as the First Party may like to impose.

14. MODE OF MEASUREMENT & METERS:

For the purpose of measurement of the quantity of water extracted, the "Second Party" shall under this Agreement, with the prior Approval of the First Party, install at such points as may be indicated by the First Party, as many meters or as equal to the different type or types of uses of water so as to register the quantity of water in such units of measurement as may be adopted by the First Party from time to time. Provided that for the purpose of checking the accuracy of the meter/meters installed by the Second

Contd. on page-4

Chief Engineer (Comm.)
For & on behalf of
Damodar Valley Corpn.
Kolkata

Vikash Metal & Power Ltd.

Director

Party, the First Party may install check meters or other mutually agreed upon check measures and the Second Party shall provide all facilities required by the First Party for such installation or such check.

05. **SEALING OF METERS:**

All meters referred to in the above mentioned **Clause-04** excepting the ones with automatic recorder on charts if any, shall be properly sealed on behalf of both the Parties hereto and shall not be interfered with by either Party except in the presence of the other Party or its representatives duly authorised in that behalf.

06. **METER READING, INSPECTION & BASIS OF PAYMENT:**

The Control Valve House housing the meter/meters of the Second Party shall remain in the custody of the Second Party and the First Party through its representative duly authorised in that behalf shall at all times be entitled to enter the said Control Valve House and inspect the meter/meters. The meter reading shall be entered up daily at 9.00 hours in a register by the Second Party or its representatives duly authorised in that behalf. The readings may be checked and attested by the First Party or its representative duly authorised in that behalf, at convenient intervals and only the meter readings as recorded in the Register shall form the basis of payment to the First Party, provided that where it is not possible to record the quantity of water extracted for a particular use directly owing to the absence of a meter directly recording such quantity, the quantity extracted for such use shall be determined by taking the difference between the quantity recorded in the main meter, recording the total quantity extracted for all uses under this Agreement, and the quantity recorded for the other uses for which there may be direct meter/meters, provided further that if this meter/meters installed by the second party for recording the quantity of water is/are out of order, the quantity of water extracted may be assessed by taking the average of the quantity extracted during the previous three months as per the reading of the meter/meters, provided further that nothing as aforesaid shall prevent the respective parties from arriving at a mutual settlement (agreement) as regard the quantity of water to be charged for during the above period.

07. QUANTITY OF WATER CONSUMED OR EXTRACTED:

The Registers of meter reading referred to in the above mentioned Clause-06 or the assessed quantity of water mutually agreed upon by and between both the parties hereto or on the average of the quantity of water extracted during the three months as aforesaid or computed by taking the difference between the direct recording and main meter shall be the prima facie evidence of the quantity of water extracted by the Second Party.

08. PROPRIETARY RIGHT OF METERS AND UPKEEPMENT:

Meters as mentioned in the above mentioned **Clause-04** shall be the property of the Second Party and the Second Party shall be liable for the upkeep of the meter and for carrying out test once a year or more to the satisfaction of the First Party about the accuracy of such meter/meters.

09. ACCURACY OF METERS:

In the event of any dispute or difference between the First Party and the Second Party as to the sufficiency or accuracy or state of repair of condition of the said meter or as to the quantity of water extracted through such meter, such difference or dispute shall be referred to and determined by an Engineer to be appointed by both the parties hereto.

10. BASIS OF ASSESMENT IN ABSENCE OF METER:

If at any time the meters installed for measurement of water extracted shall, at any time, cease to register correctly or be removed for repair, calibration etc., then for the period until the said meters shall have been repaired, replaced or otherwise adjusted so as to register the quantity of water passing through it correctly, the First Party shall be entitled to charge and the Second Party shall be liable to pay for such quantity of water as may be assessed by taking the average of the quantity extracted during the previous three months as per readings of the meters or as otherwise agreed to mutually between the parties hereto.

Contd. on page-6

11. BILL & THE TARIFF:

The price for supply of water extracted shall be charged to the Second Party in accordance with the First Party's Schedule of rates as per Annexure-'A' enclosed and other conditions in force from time to time, provided that any levy such as Sales Tax, Octroi or by whatever other name called, known or made by the State Government, or any other competent authorities on quantity of water extracted by the Second Party shall be paid by the Second Party.

12. TIME TO SUBMIT CONSUMPTION REPORT & SURCHARGE FOR DELAY IN PAYMENT OF BILLS:

The First Party shall after the expiry of each month/quarter of the year deliver to the Second Party an account stating quantity of water supplied to the Second Party by the First Party in accordance with the readings of the said meter/meters of the Second Party and the amount payable therefore and the Second Party shall pay the same within 30 days from the date of delivery of such account. If the Second Party fails to pay the amount of any bill due under this Agreement within 30 days from the date of receipt of the bill referred to, it shall pay a surcharge of 1% per month from that date. The date of receipt of payment either in cash or in cheque in the First Party's office will be considered as the date of payment for the purpose of this Agreement. If the amount of such bill remains unpaid for 60 days after the date of receipt of the bill referred to above, the First Party shall give the Second Party 7 (seven) days' notice of its intention to discontinue the supply of water and at the expiry of such period if the payment has not been received, the First Party may forthwith discontinue supply of water to the Second Party.

13. MODE OF SUPPLY UNDER NORMAL CONDITION & ABNORMAL CONDITION:

Save as provided herein 1.0 (One Decimal Zero) MGD which, however, need not be continuous, throughout 24 hours, shall be available to the Second Party provided that in case of draught, accident, or other unforeseen circumstances, force majeure or any other cause over which the First Party has no control, the First Party shall not be responsible for any diminution or discontinuance of supply on such occasions, but it shall restore

Contd on page-7

Damodar Valley Corpn.
Kolkata

Vikash Metal & Power Ltd.

Director

the normal conditions of supply as soon as it reasonably can to the extent possible.

14. RULES & REGULATION:

The Second Party agrees to conform to and abide by all rules and regulations made by the First Party now in force and/or which may from time to time be made by the First Party consistent with this Agreement relating to the extraction of water from the First Party's sources within the statutory limit of the said Act.

15. DISPUTE OR DIFFERENCE & ARBITRATION:

In the event of any dispute or difference arising at any time between the 'First Party' and the 'Second Party' in regard to any matter arising out of or in connection with this Agreement such dispute or difference shall be referred to the Arbitration of three Arbitrators, one to be appointed by each party hereto and the Third Arbitrator to be appointed by the Arbitrators appointed by each party as presiding Arbitrator for adjudication of dispute in accordance with the Arbitration and Conciliation Act 1996 or any statutory modification thereof or for the time being in force. The cost of Arbitration so agreed to by and between the parties, shall equally be borne by both the parties. The venue of Arbitration shall be at Kolkata and the Court at Kolkata shall have Jurisdiction.

16. TENNURE OF AGREEMENT OR VALIDITY:

This Agreement shall subject as hereinbefore provided be and remain in force for a period of 40 years initially from the date of commencement of supply under this Agreement and thereafter shall continue uninterruptedly for an indefinite period under the existing terms and conditions until determined by either party after the expiration of the fortieth or any subsequent year on giving 12 months' prior notice in writing of such intention and at the expiration of such notice this Agreement shall absolutely cease and determine but without prejudice to the rights and remedies, if any, of either party which may have accrued or arisen hereunder in the meantime and provided that the

Contd on page-8

Chief Engineer (Comm.)

Vikash Metal & Power Ltd.

Director

Second Party shall on giving the First Party 12 months' prior notice in writing of such intention be at liberty at any time after the expiration of the fortieth year to terminate this Agreement by making payment of the charges equal to water charges for one year as per the rate of withdrawal of the First Party in force at that time.

IN WITNESS WHEREOF THE PARTIES TO THESE PRESENTS HAVE HERE UNTO PUT THEIR RESPECTIVE HANDS AND SEALS EACH THE DAY AND YEAR FIRST ABOVE WRITTEN.

The Agreement along with Schedule of rates would come into effect on and from the date of commencement of water supply.

Sub : Execution of agreement with M/S Vikash Metal & Power Ltd.

Ref : Letter dt. 26/7/05 from Vikash Metal & Power Ltd.

Dear Sir,

M/S Vikash Metal & Power Limited has been allowed by DVRRC to draw 1.0 MGD of water from Damodar river for their Sponge Iron factory at vill. Poradih, Purulia, West Bengal. A formal agreement has to be executed between DVC & M/S Vikash Metal & Power Limited for this drawal of water. The intake area has been inspected by our MRO Office. The relevant documents including the clearance from DVRRC have been submitted by M/S Vikash Metal & Power Limited in eight copies. Those are being forwarded for necessary further action from your end for execution of the agreement please.

Encls : As above

Yours faithfully,

Subj:- Allocation for drawing 1 MGD of water from River Damodar for Vikash Metal & Power Ltd for anti-pollution measures in their running Sponge Iron plant at Paradiha, District Purulia (WB).

Ref: Your letter No.NIL dated 12th April, 2004.

Sir,

In the light of resolution taken under item III.2.16 during the 11th meeting of DVRR Committee held at Kolkata on 27-05-2005, I am to convey the decision of the DVRR to allocate water for Vikash Metal & Power Ltd (VMPL) for anti-pollution measures in their running Sponge Iron Plant at Paradiha, Distt- Purulia (West Bengal) subject to the following.

- (A) The allocation of water is restricted to 1.0 (One) MGD and shall be drawn from right bank of river Damodar downstream of Damodar Railway bridge (on line connecting Madhukunda and Damodar stations).
- (B) Drawal of 1.0 MGD for VMPL's Plant at Paradiha will be made from the releases from Maithon-Panchet reservoirs for Industrial & Municipal uses. There will be no additional release over and above the existing releases to meet the requirements of VMPL's Plant.
- (C) Water for VMPL's Plant shall be drawn directly from river Damodar about 1.7 km downstream of Damodar railway bridge by construction of a suitable intake structure, so as not to disturb the river regime.
- (D) The intake structure and drawal of water shall, under no circumstance, be detrimental to the safety and operation procedures of Barrage/Reservoirs/bridges both upstream and downstream of the intake point.
- (E) Adequate care should be taken in design and construction of the intake structure to ensure availability of full 1.0 MGD of water during the summer months. The intake structure should be able to withstand the high flows carried by the river.

- (F) The sourcing point and allocation of 1.0 MGD of water is project specific. The allocation shall, in no way, be utilized by VMPL or its sister concern (or any agency on its behalf) for any other purpose.
- (G) VMPL will have to ensure that the effluent water discharging out of its plant shall have to conform to the latest regulations/prescribed water quality parameters. On this aspect, DVC will also conduct checks regularly.
- (H) VMPL shall have to execute an agreement with DVC and pay charges to DVC for the water drawn by it as per the terms and conditions in force. The allocation will come into effect from the day of executing of the agreement with DVC.

Yours faithfully
