

REVIEW OF THE PROJECT ACTIVITY

Shree Chhatrapati Shahu RE Project (1297)

The Board could not register the project activity submitted for registration by the DOE (SGS), because the DOE and project participant failed to substantiate the additionality of the project activity, in particular;

- (a) as the suitability of the applied benchmark has not been substantiated; and/or
- (b) the adequacy of the completeness of the evidence to support the claim that CDM was needed in securing financing for the project is not credible.
