

Annex 17

Registration

Scope of the review on

“Reducing the Average Clinker Content in Cement at CEMEX Mexico Operations” (1356)

1. The Board agreed to undertake a review of the project activity “Reducing the Average Clinker Content in Cement at CEMEX Mexico Operations” (1356).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine the additionality, in particular:
 - (a) the validation of the barriers in accordance with the requirements of the methodology, and
 - (b) the validation of the surplus availability of the additives.
