

**REVIEW OF THE PROJECT ACTIVITY****SMC WHRB 1&2 (1702)**

At its forty-third meeting the Board could not register the project activity submitted for registration by the DOE (SGS) because the project participant and the DOE have failed to substantiate the additionality of the project activity, in particular, that continuing and real actions were taken to secure CDM status for the project in parallel with its implementation, in particular, for Phase 1, as required by EB41 Annex 46.
