

**Annex 22****Registration****Scope of the review on  
“Guangdong Huizhou LNG Power Generation Project” (1884)**

1. The Board agreed to undertake a review of the project activity “Guangdong Huizhou LNG Power Generation Project” (1884).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review of the additionality of the project activity, through an assessment of:
  - (a) the investment analysis, as it has not been demonstrated that the tariff is unlikely to increase to a level where the IRR would pass the benchmark; and
  - (b) the prior consideration of the CDM, as the time gap between the project start date and efforts to secure CDM status have not been substantiated.
