Dear Sir,

We are pleased to inform you that Krishi Rasayan Private Limited is operating a solid waste management project by composting in Baliapanda, Puri in order to treat the Municipal Solid Waste and other food waste in order to improve the environment, health and sanitary conditions of Puri. The project also prevents the emission of methane gas to the atmosphere which is responsible for causing global warming as it is a green house gas.

The solid waste management project treats the MSW and food waste collected from various parts of Puri by the process of aerobic composting to prevent methane emissions to the atmosphere. The waste is treated to produce organic manure which is also an environment friendly manure resulting in improving soil productivity.

Enclosed please also find a brief description of the project and treatment process schematic diagram for your reference.

We wish to receive your feedback on the above project. We would appreciate if you can send us the same preferably in writing.

Thanking you,

Yours faithfully,

For Krishi Rasayan Private Limited,

  
Director

REF NO. 52/CDATE 25.05.07

To

The Director,  
Krishi Rasayan Private Limited,  
Puri, Orissa.

Sir,

With reference to your letter dated 25.04.2007, we understand that the project activity of treatment of municipal solid waste and food waste to produce organic manure by composting at Krishi Rasayan Private Limited is an environment-friendly disposal process of solid waste. We appreciate your efforts towards improving the environmental and health conditions of Puri by avoiding the emission of harmful pollutants such as Methane (which is a harmful green house gas) from the garbage heaps. The project will also eliminate the foul smell from the garbage heaps and thereby promote tourism business in Puri. The project has also created some employment opportunities for the local people.

It is our pleasure to commend Krishi Rasayan Private Limited for taking this initiative and confirm that they have our full support.

Wish you all the best for the project.

Thanking you,

Yours faithfully,

Sri Gourahari Pradhan

Letter No - CEE/AAWaMP/169/07.

Date: 25.04.2007

To  
The Director,  
Krishi Rasayan Private Limited  
Puri, Orissa

Dear Sir,

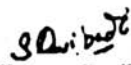

With reference to your letter dated 25.04.2007, we wish to convey our appreciation and support for your project which implements an environment-friendly treatment of MSW and food wastes to reduce organic manure by composting. We understand that the above treatment process entails improving the environmental conditions of the locality and also contributes towards global environmental improvement by avoiding emission of a green house gas (methane gas).

Krishi Rasayan's initiatives for promoting organic manures which will improve soil qualities in our state of Orissa even amidst the stiff competition faced from the other synthetic fertilizer producers are also appreciated.

Wishing Krishi Rasayan Private Limited all the best for their efforts.

Thanking you,

Yours truly,

  
Suman Dwivedi  
Project Associate
