Subject: Additional revenue stream through CDM for wind installations in Sangli, Maharashtra.

Dear Sir,

This is with reference to our meeting with Shri. Animesh Sinha regarding the proposed investment for wind installation in Maharsathra.

During discussions, it was confirmed by you that the wind installations being environmentally begin activities are eligible for additional revenue stream through registration with UNFCCC as CDM projects.

We would like to have the following inputs from you:

- a) If we purchase wind machines through Suzlon, the same will be eligible for CDM registration as we do not find them viable enough without additional revenue through sale of carbon credits.
- b) Suzlon will assist us in finalizing a CDM consultancy organization for registration assistance and will also provide us all the necessary support during and after registration of the project.

Thanking you

Yours faithfully,

For Taurian Iron and Steel Pvt. Ltd.
