河南郑州燃气发电有限公司揭牌

8月31日，负责经营管理河南首座天然气电站的郑州燃气发电有限公司正式揭牌。此举同时标志着，该公司的工程建设进入到最后的安装调试阶段。

该公司安装两台39万千瓦燃气—蒸汽联合循环机组，是西气东输工程最上游的天然气电站。工程自2005年7月正式开工以来，克服了调试试用气紧张、设备供货滞后、送出工程受等诸多困难，工程建设按计划稳步推进。

目前，工程建设者正加班加点抢工期、赶进度，为实现机组年内投产发电而奋斗。

Henan 1st Natural Gas Power Plant Zhengzhou Combined Cycle Power Co., Ltd Revealed

31 August, Henan 1st Natural Gas Power Plant Zhengzhou Combined Cycle Power Co., Ltd Revealed. This is a sign to show that the project is approaching it's final installation stage.

The company which has installed two units of 390MW gas / steam combined cycle facilities, is the 1st natural gas power plant of the West Gas to East Program. The project has started construction since July 2005, which has overcome problems including natural gas supply, equipments delay and difficulties of late subcontracting, and resulted in satisfactory project progress.

Right now, the project proponent is trying their best to accelerate the project progress in order to put the project into operation next year.
