Request for review

Dear Sirs,

Please find below the response to the request for review formulated for the CDM project with the registration number 330. In case you have any further inquiries please let us know as we kindly assist you.

Yours sincerely,

Werner Betzenbichler
Carbon Management Service

Michael Rumberg

Response to the CDM Executive Board

Issue 1:

The use of OECD default efficiencies for coal and gas fired power plants is not acceptable under approved baseline methodologies, as no deviation has been allowed for India so far.

Response by TÜV SÜD:

The small scale methodology applied does not prescribe the type of data to be used for plant efficiency. The efficiency data used in the project moreover is country specific data for India from a reliable source. The audit team hence accepted the figure.
