

CDM project activity registration review form (F-CDM-RR)
(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)

Designated national authority/Executive Board member submitting this form	
Title of the proposed CDM project activity submitted for registration	Solar Steam for Cooking and other applications – CDM project in India (0414)
Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation.	
☐ <i>The following are requirements derived from paragraph 37 of the CDM modalities and procedures:</i> ☐ The participation requirements as set out in paragraphs 28 to 30 of the CDM modalities and procedures are satisfied; ☐ Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received; ☐ Project participants have submitted to the DOE documentation on the analysis of the environmental impacts of the project activity, including transboundary impacts and, if those impacts are considered significant by the project participants or the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party; ☐ The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures; ☒ The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board; ☐ Provisions for monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP; ☒ The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board.	
☐ <i>The following are requirements derived from paragraph 40 of the CDM modalities and procedures:</i> ☐ The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project participants written approval of voluntary participation from the designated national authority of each Party involved, including confirmation by the host Party that the project activity assists it in achieving sustainable development; ☐ In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document; ☐ The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available; ☐ After the deadline for receipt of comments, the DOE shall make a determination as to whether, on the basis of the information provided and taking into account the comments received, the project activity should be validated; ☐ The DOE shall inform project participants of its determination on the validation of the project activity. Notification to the project participants will include confirmation of validation and the date of submission of the validation report to the Executive Board; ☐ The DOE shall submit to the Executive Board, if it determines the proposed project activity to be valid, a request for registration in the form of a validation report including the project design document, the written approval of the host Party and an explanation of how it has taken due account of comments received.	
☐ There are only minor issues which should be addressed by the DOE / project participants prior to the registration of the project.	
Section below to be filled in by UNFCCC secretariat	
Date received at UNFCCC secretariat	07/06/06

Reasons for request:

1. It is unclear from the PDD why it is assumed that diesel is the baseline fuel. Cooking may also be based on renewable or non-renewable biomass for which the methodology used would not apply.
2. It is unclear how potentially new locations in the bundle will be treated as these would not have been validated. According to the PDD the bundling organisation reserves the right to replace projects being part of a bundle, while at the same time this replacement is based on the assumption that the overall emission

reductions of the bundle will not be increased by replacing a project being part of the bundle. There is a clear decision by EB 21 that the composition of a bundle must not change over time.

3. According to a EB 21 decision, it has to be demonstrated that the bundle will remain below the limit in every year of the crediting period; there is no proof in the PDD that the project activity is below the 15MW – it is simply stated as a fact without any calculation to show that this is the case.
4. There is a special form for submission of bundles, which has not been used by the PPs.
5. The project activity started as of March 1st, 2005. The starting date of the crediting period is June 1st, 2006 while the earliest date for registration is the day after the period for requesting a review, i.e. June 11th, 2006.
