

 <b>CDM project activity issuance review form</b> <i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i>	
<b>Designated national authority/Executive Board member submitting this form (Name in print)</b>	
<b>Title of the proposed CDM project activity for which issuance is requested</b>	Catalytic N <sub>2</sub> O destruction project in the tail gas of the Nitric Acid Plant of Abu Qir Fertilizer Co.; Project Activity 0490
<b>DOE that requested for issuance and date of request</b>	DNV CUK 06-07-07
<b>Please indicate, in accordance with paragraphs 65 of the CDM modalities and procedures, for which reason(s) you request review. (Place a cross (X) in front of the reason)</b>	
<input type="checkbox"/> <i>Fraud</i> <input type="checkbox"/> <i>Malfeasance</i> <input checked="" type="checkbox"/> <i>Incompetence</i>	
<b>Please indicate reasons for the request for review and attach any supporting documentation to this request form. (if space is not sufficient please attach further reasons)</b>	
<ol style="list-style-type: none"> <li>The monitoring report states that the hydrocarbon oxidation factor has been continuously measured while the verification report mentions it has been calculated. According to the approved methodology and the registered monitoring plan, this parameter is required to be measured. Further clarification is required regarding the monitoring of this parameter.</li> <li>The PDD on page 46 mentions "Since also the gauze pressure is an important parameter ----- AFC will either change the pressure measuring device or calibrate it prior to the starting date of the project activity ---- to obtain more accurate pressure measurement." The verification report of the first periodic verification does not indicate whether this was done. The monitoring as well as verification reports of the current crediting period also do not clarify whether this was done. The project participant should clarify whether the pressure measuring devices were changed or calibrated in the report and DOE should verify/certify it.</li> </ol>
