<ol style="list-style-type: none"> 1. The DOE reported that the project participant wrongly entered data for electricity generation and auxiliary consumption and has accepted corrections to the data in a revised monitoring report. While the DOE has confirmed in the first verification report that the QA procedure for internal data exists, it is unclear from the current verification report whether an assessment was conducted by the DOE to check if the QA procedure was being followed or needs to be revised to avoid such mistakes. 2. The summary and introduction sections of the verification report refer to 'first periodic verification'. Since this is the second request for issuance, these sections need to be corrected.
