Reasons for Request:

While the validation report confirmed that “a detailed ‘Monitoring Plan’ has been submitted as attachment to the PDD”, it is a stand-alone document produced by the PCF dated September 2005. The PCF document does not conform to the reporting format as required in the PDD, nor does it use the data ID numbers or general descriptive format as stated in AM0010. The data parameters listed in the PCF monitoring plan do not correlate entirely with those required for monitoring in AM0010. In sum, the monitoring plan submitted lacks transparency and direct correlation to AM0010, making it difficult to determine whether or not it complies fully with the approved methodology.
