

**Annex 67**

**Issuance**

**Scope of the review on**

**“MSPSPL Waste Heat Recovery Based Captive Power Project ” (0818)**

1. The Board agreed to undertake a review of the project activity “MSPSPL Waste Heat Recovery Based Captive Power Project ” (0818).
2. The Board agreed that the scope of the review relating to issues associated with verification requirements shall cover an assessment to determine how the applied “steam apportioning” approach based on steam flow rate is appropriate to estimate EGy (net quantity of electricity supplied to the manufacturing facility) contributed by the CDM project activity.
