TURNKEY PLANTS WITH DRAWN TO MARKET

REGISTERED OFFICE  
& HEAD OFFICE  
CHHURU ROAD,  
BARODA-390 002, INDIA

Ref : Sales/5502042/JKL  
20<sup>th</sup> September 2006

TO WHOMSOEVER IT MAY CONCERN

This is to certify that SAYAJI make Twin Tube Vibrating Mill, size 600 dia x 3500mm lg. bearing Sr.No.141 with standard accessories and the grinding media is supplied to M/s. Birla Plus Cement (A Unit of Greem Incls. Ltd.), Village B P.O. Lehra Mohabbat-151111 against their P.O.No.BBP/BACO 166 dated 14.10.2005 from their Mumbai Office, for the application of fine grinding of fly ash.

The Mill is designed for grinding of fly ash to a finished particle size of  $\leq 32$  Microns.

This is a technological innovation new to the cement grinding industry for separate grinding of fly ash t very high degree of fineness. Addition/mixing of such finely ground fly ash with ground clinker will facilitate improved reactivity and this will subsequently result in enhancement of percentage absorption of fly ash in cement.

For SAYAJI IRON & ENGG.CO.LTD.
