To Whomsoever It May Concern

Jindal Stainless Limited (JSL) has installed the novel technology of recovering sensible heat from waste gases of Submerged Arc Ferro Chrome Furnaces at its manufacturing unit at Jajpur, Orissa and utilizing the same for captive power generation.

We appreciate the initiative taken by JSL for generating cleaner and energy efficient power and wish that the implemented technology provides them the desired results.

We also hope that other Ferro Chrome Member manufacturers will follow the same technology as an environment friendly gesture in their Plants.

A handwritten signature in black ink, appearing to read 'TS Sundaresan', is positioned above the printed name and title.
