

## REVIEW OF THE PROJECT ACTIVITY

### **“Sichuan Shimian Xieluo Wanba River Hydropower Station” (1969)**

At its forty-sixth meeting the Board could not register the project activity “Sichuan Shimian Xieluo Wanba River Hydropower Station” (1969), submitted for registration by the DOE (TÜV-SÜD), because the project participant and the DOE have failed to substantiate the additionality of the project activity due to insufficient evidence to support the assumption of a 25% gap between electricity generation and supply to the grid and its applicability to the investment analysis.
