

**REVIEW OF THE PROJECT ACTIVITY****“Sichuan Kangding Sandaoqiao Hydropower Station” (1991)**

At its forty-sixth meeting the Board could not register the project activity “Sichuan Kangding Sandaoqiao Hydropower Station” (1991), submitted for registration by the DOE (TÜV-SÜD), because the DOE and project participant failed to substantiate the additionality of the project activity due to insufficient evidence to support the assumption of a 20% gap between electricity generation and supply to the grid and its applicability to the investment analysis.
