## 关于请求支持宣恩县鱼泉水电站 申请 CDM 项目的请示

宣恩县人民政府：

我公司鱼泉水电站正在进行前期准备工作，虽然经济指标一般，但我公司了解到可以通过申请清洁发展机制(CDM)项目改善项目经济指标。CDM 项目旨在通过转让温室气体减排，增加项目收益。公司内部董事会决策通过了申请 CDM 项目的决议，目前正在跟相关咨询单位洽谈。鱼泉水电站为可再生能源项目，如果能够获得 CDM 项目收益，一方面本项目内部收益率将得到改善，贷款还本付息能力得到提高；另一方面可增加当地政府的财政收入，实现可持续发展。因

此，特向县人民政府提出申请，以支持我公司鱼泉电站申请 CDM 项目的相关工作。

妥否，请批示。

## **Support Proposal for Applying Xuan'en Yuquan Hydropower Station as a Clean Development Mechanism Project**

To Xuan'en County Government,

Presently, Yuquan Hydropower Station is under previous preparation. Although the economic indicators of this project are not good, however, we learnt the economic indicators can be improved by applying this project as a Clean Development Mechanism (CDM) project. CDM revenues help to increase project revenues through transferring greenhouse gas emission reduction. The Directorate passed the decision of applying this project as a CDM project, and at present we are negotiating with relevant consulting companies on this case. Yuquan Hydropower Station falls into the catalogue of renewable energy resource projects, if this project acquires the CDM revenue, the internal rate of return will be improved magnificently, the ability to repay the loan will be promoted, and the financial revenue for the local government will be increased as well. By this way, the sustainable development can be conducted.

Hence we present this application to the government as we hope to obtain the support for applying Yuquan Hydropower Station as a CDM project.

Your reply will be appreciated.
