

Final Ruling Regarding the Request for Registration of

“Cooperativa Lar Wastewater Treatment and Energy Generation Project” (3998)

The CDM-Executive Board decided to reject the above proposed project activity on 3rd June 2011, during its 61st meeting, in accordance with “Procedures for review of requests for registration, version 1.2, EB 55, Annex 40, paragraphs 23, 24 and 28 (the procedures). In accordance with paragraph 27 of the procedures, the ruling shall contain an explanation of the reasons and rationale for the final decision which are as follows:

- The DOE (TÜV SÜD) failed to substantiate the additionality of the project activity and meet the validation requirements to demonstrate the applicability of the assumed input values used to carry out the investment comparison analysis for the project activity and its baseline alternative, in accordance with , “*Guidelines on the assessment of investment analysis*”, version 3.1, EB 51, Annex 58, paragraph 6.
- EB 51, Annex 58, Paragraph 6 of states that ‘*Input values used in all investment analysis should be valid and applicable at the time of the investment decision taken by the project participant. The DOE is therefore expected to validate the timing of the investment decision and the consistency and appropriateness of the input values with this timing. The DOE should also validate that the listed input values have been consistently applied in all calculations*’.
- The DOE failed to demonstrate that the input values used, for the project investment cost, electricity tariff and power generation, in the investment comparison analysis for the project activity and baseline alternative are applicable considering that these values were available (from October 2008 to December 2009) after the project start date (20 June 2008).

Please note, however, that, with appropriate revisions, this project activity may be resubmitted for validation and registration provided it meets the requirements for validation and registration, in accordance with paragraph 42 of the CDM Modalities and Procedures (Decision 3/CMP.1).
