

Eighth CDM Roundtable

Wrap-up session

Bonn, Germany, 17 June 2013

Session II D: Draft procedure for development, revision, clarification and update of standardized baselines

Main issues discussed:

- Under which situations following formats of standardized baselines can be developed? (Is explanation acceptable?)
 - a) SBM
 - b) SB

Session II D: Draft procedure for development, revision, clarification and update of standardized baselines

Action points / Proposals:

- The draft procedure will be developed taking into consideration of the following points raised:
 - a) Try to simplify and clarify the procedure and its concept
 - b) When we reach the point of the necessity, we may have this SBM
 - c) Use default standard value in meths – more standardized
 - d) Try to avoid the frequent revision of Global meth
- Input through emails on which approach you prefer 1)SBM and SB or 2) SB only by June 24 2013.
