The GUIDELINES ON ADDITIONALITY OF FIRST-OF-ITS-KIND PROJECT ACTIVITIES (version 01.0) ‘the guidelines’. The guidelines set out the process for identifying if a project is first of kind and then state that “A proposed project activity that was identified as the First-of-its-kind project activity is additional”. It seems to be implicit in this statement that there is no further need to follow all the steps in the Tool for the demonstration and assessment of additionality (Version 05.2) and Combined tool to identify the baseline scenario and demonstrate additionality (Version 03.0.0).

Can satisfaction of paragraphs 1 to 5 of the guidelines be used as a stand alone argument for additionality demonstration?

Please use the space below to mention any suggestions or information that you want to provide to the Board. In doing this please describe the exact reference source including the version (if any).
