>>

Our project activity reference No.1693 HITECH CDM CPP has been registered as future project activity and with proposed crediting period was to be started from 01/06/2009. The project activity implementation was delayed to various unavoidable reasons, it is implemented on 09/05/2012. On going through EB-51, Annex 59 "Procedure for requesting post-registration changes to the start dte of the crediting period" it is found that there are only procedures given for delay between 0 to 2 years whereas there is no provision or guidelines provided for delay beyond 2 years for our host country India, the procedure for reporting delay beyond 2 years and up to 4 years are provided for LDC only under para 8 (b).

Kindly oblige by providing the guidelines how to proceed further in the matter for our project activity which is located in India, and in which delay in starting date of crediting period is delayed by 2 yeas and 11 months approx.

Please provide any specific suggestions or further information which would address the issue raised in the previous section, including the exact reference source and version (if applicable).
