Re.: Landfill gas use for other purposes not defined in the registered Project Design Document

Dear Mr. Santo,

Thank you for your letter received on 26 September 2012, which has been made available to the CDM Executive Board.

On behalf of the Chair of the Board, I would like to thank you for your communication regarding the use of landfill gas for other purposes not defined in the Project Design Document (PDD) of a registered CDM project activity.

I would like to refer you to the “*Clean Development Mechanism Project Standard*”, version 01.0, section H. Post registration changes (PRC) and Appendix 1: Changes that do not require prior approval by the Board. Please note that the PRC request can either be combined with the request for issuance or require prior approval, depending on the nature of changes.

The Board is not in a position to provide specific guidance on the impacts to the issuance of CERs for this particular CDM project activity.

I hope this letter suitably addresses all your concerns.

Yours sincerely,

Andrew Howard
Secretary to the CDM Executive Board
