PP wants to publicly declare that it would not claim emission reductions for a **part of credit period** under CDM and would get these issued in another GHG programme i.e. VCS/ Gold Standard for the same period. PP wants to do it to avoid any possibility of double counting and maintaining transparency.

The following example illustrates the situation -

Crediting period type – Fixed for 10 years

Crediting period duration - from 01/01/2011 – 31/12/2020

No Claim Period – 01/01/2011 – 31/12/2012

PP seeks guidance from the board on the process of “**Not claiming credits for a part of crediting period**” for a registered CDM project.

1. Is it possible to not claim and openly declare withdrawal a part of crediting period as suggested above?
2. Is there any guideline/procedure available for requesting such voluntary withdrawal?

Please provide any specific suggestions or further information which would address the issue raised in the previous section, including the exact reference source and version (if applicable).
