

 CDM: FORM FOR SUBMISSION OF A “LETTER TO THE BOARD” (Version 01.2)	
This form should be used only by project participants and other stakeholders for submitting a “Letter to the Board” in accordance with the latest version of the <i>Modalities and procedures for direct communication with stakeholders</i>	
Name of the stakeholder ¹ submitting this form (individual/organization):	Econergy Brasil Ltda
Address and contact details of the individual submitting this form:	Address: Angelica Avenue, 2530 cj 35 Telephone number: +55 11 3555-5700 E-mail address: francisco.santo@econergy.com.br
Title/Subject (give a short title or specify the subject of your submission)	Renewal of Crediting Period and Project plant configuration changes.
Please mention whether the submitter of the form is:	<input checked="" type="checkbox"/> Project participant <input type="checkbox"/> Other stakeholder, please specify
Specify whether you want the letter to be treated as confidential ² :	<input type="checkbox"/> To be treated as confidential <input checked="" type="checkbox"/> To be publicly available (UNFCCC CDM web site)
Please choose any of the type(s) below ³ to describe the purpose of this submission.	
<input checked="" type="checkbox"/> Type I: <input type="checkbox"/> Request for clarification <input type="checkbox"/> Revision of existing rules <input type="checkbox"/> Standards. Please specify reference <input checked="" type="checkbox"/> Procedures. Please specify reference Renewal of the crediting period of a registered CDM project activity Section XII.H of the CDM project standard <input type="checkbox"/> Guidance. Please specify reference <input type="checkbox"/> Forms. Please specify reference <input type="checkbox"/> Others. Please specify reference <input type="checkbox"/> Type II: Request for Introduction of new rules <input checked="" type="checkbox"/> Type III: Provision of information and suggestions on policy issues	
Please describe in detail the issue on which you request a response from the Board, including the exact reference source and version (if applicable).	

¹ DNAs and DOEs shall use the respective DNA/DOE forms for communication with the Board.

² As per the applicable modalities and procedures, the Board may make its response publicly available.

³ Latest CDM regulatory documents and information are available at: <http://cdm.unfccc.int/Reference/index.html> .

>>

Dear all,

Econergy is a CDM consultancy with a huge experience in CDM Market since 2005. In our portfolio has around 50 registered CDM project with more than 7 million of issued CERs.

ESTRE's Paulinia Landfill Gas Project (EPLGP) is a registered CDM project which comprises the landfill collection and combustion in enclosed flares only.

The project is currently in time for Renewal of the Crediting Period and since the PP has the opportunity to change the landfill gas plant configuration including, besides the landfill gas flaring:

- Delivering and selling part of the project landfill gas to a gas distribution network which is outside the project boundary and not defined in the registered Project Design Document.
- Electricity generation though the installation of generators that will combust the LFG to produce electricity, using part of the electricity for self consumption and the other part will be exported to the grid, which is also outside the project boundary and not defined in the registered Project Design Document.

We need a clarification on how those project plant changes should be carried out considering the Renewal of the Crediting Period.

The main question is:

- 1) Is it necessary to execute first the Renewal of the Crediting Period using the project plant configuration defined in the registered PDD (flaring only) and after that carry out a Post-Registration Changes?
- 2) Is it possible to include the changes in the landfill gas plant configuration during the Renewal of the Crediting Period process at once?

Yours faithfully,

Please provide any specific suggestions or further information which would address the issue raised in the previous section, including the exact reference source and version (if applicable).
